

MASHNEE WASTE MANAGEMENT PLAN

1. This plan describes policy and procedures for handling this vessel's garbage according to MARPOL Annex V and 33 CFR Subparts 151.51 through 151.77. The captain of each voyage is responsible for carrying out this plan. All crewmembers and embarked persons shall follow the instructions in this plan. **It is the general policy of this vessel that all food waste and garbage will be retained on board for proper disposal ashore.**
2. Waste for this vessel is collected in the trash bin under the galley sink and, if necessary, stored in the cockpit lazarettes. When moored, all waste will be carried from the vessel and disposed of in the marina dumpster, or other suitable facility.
3. When sailing on inland waters or at sea within 12 nautical miles of land, no food, garbage or waste of any type will be discharged. When on an extended voyage, beyond 12 nautical miles from land, food waste, with the exception of cooking oil, may be discharged if storage space is not available. **In no case will waste of any kind be discharged into the water without inspection by and explicit permission from the captain.**
4. **Plastics and waste containing plastic materials will never be discharged into the water from this vessel regardless of location.**
5. Questions about this plan should be directed to the captain.
